

BMC Track-It! Barcode

Track-It! Barcode makes accurately identifying, validating and transferring any asset within the Track-It! Inventory module quick and easy. Developed in response to customer demand, Track-It! Barcode integrates seamlessly into Numara Track-It!, and allows users to track all assets, even those that cannot be found via discovery.

Product features

- » Track-It! Barcode is quick and easy to set up. Out of the box, you can be up and running in minutes.
- » Synchronize physical inventory from the barcode scanner with automatically discovered assets in Track-It!

If you have a few PCs under management or thousands of assets to track; if you are conducting a physical audit; if you're budgeting for the maintenance, upgrade, replacement and usage of your assets or if your organization simply requires routine physical inventory, Track-It! Barcode can help.

Benefits

- » Quickly Input Information for IT Asset Management and Inventory Control
- » Dramatically Improve Data Accuracy
- » Track Any Asset Quickly and Easily
- » Gain visibility and control of all of your company's assets
- » Automate Manual Processes
